Install LMS Bridge in Blackboard (Anthology)

Learning Mastery Support · free & open-source LTI 1.3 / Advantage tool · lmsbridge.app

You need LMS-admin access. Replace YOUR-HOST with your LMS Bridge address. These URLs (also at /api/v1/lti/config and the admin LMS (LTI) tab) are what the LMS needs:

OIDC login URL	`https://YOUR-HOST/api/v1/lti/login`
Launch / Target Link URI	`https://YOUR-HOST/api/v1/lti/launch`
Redirect URI	`https://YOUR-HOST/api/v1/lti/launch`
Public keyset (JWKS) URL	`https://YOUR-HOST/api/v1/lti/jwks`
Dynamic Registration URL	`https://YOUR-HOST/api/v1/lti/register`

Part A — tool owner registers once (Anthology Developer Portal)

1. Sign in at developer.anthology.com → Register a REST or LTI application; Domain = YOUR-HOST.
2. Supports LTI 1.3 = ON: Login Initiation URL = /login; Tool Redirect URL = /launch; Tool JWKS URL = /jwks; Signing = RS256 → Register.
3. Save the Application ID (= Client ID). Record the global endpoints in LMS Bridge (below).

Issuer	`https://blackboard.com`
OIDC auth	`https://developer.blackboard.com/api/v1/gateway/oidcauth`
Token	`https://developer.blackboard.com/api/v1/gateway/oauth2/jwttoken`
Platform JWKS	`.../management/applications/<application_id>/jwks.json`

Tip: enable auto-register deployments on this registration so each school’s Deployment ID is trusted on first launch.

Part B — each institution’s Blackboard admin

1. Admin (Ultra) or System Admin (Original) → Integrations → LTI Tool Providers.
2. Register LTI 1.3/Advantage Tool → paste the Client ID → Submit.
3. Set Tool Status = Approved; User Fields = Role/Name/Email; Allow grade service = Yes (AGS); Allow Membership service = Yes (NRPS) → Submit.
4. Also: Manage Global Properties → allow tool providers to post grades. Copy the Deployment ID (if not auto-registering).

Instructor places it

Ultra: Course Content → + → Content Market → Institution Tools → LMS Bridge. Original: Build Content → the LMS Bridge placement (or Web Link with “This link is to a Tool Provider”).

After any launch, LMS Bridge auto-provisions the user, course, and role (no extra password). Free & open-source under AGPL-3.0. UI labels verified against current vendor docs (2025–2026); confirm against your LMS version. Full guide: docs/INSTALL_LTI.md.
